

Custom Club Fitting

Get the best fit in natural golf conditions

We are the **ONLY** Advance Fitting Center for Titleist in the state and, as such, offer every option for all Titleist clubs including Vokey wedges and Scotty Cameron putters.

- Hit from grass teeing areas
- Trackman technology and its unquestioned data
- Expert, PGA qualified club fitters
- Customized clubs from manufacturers such as Titleist, Taylor Made and Mizuno
- Accurately determine consistent yardage gaps between all clubs
- Interchangeable heads and shaft options for drivers, fairway metals, hybrids and irons
- Various lofts and bounce angles for wedges and a short game area to test the results

Driver, Iron & Wedge Fitting, \$90 each
Whole Bag Fitting, \$200

TrackMan Technology

CLUB SPEED	ATTACK ANG.	CLUB PATH
86.0 mph	-4.1 deg	0.6 deg
FACE ANG.	BALL SPEED	LAUNCH ANG.
1.0 deg	112.1 mph	17.8 deg
LAUNCH DIR.	SPIN RATE	CARRY
0.9 deg	6726 rpm	150.7 m

Tour players are improving at a far greater rate than the average amateur. Wouldn't it be nice to close that gap. With Trackman, the Tour players know they have the right equipment in their bags, know how far they hit each club and know where their relative strengths and weaknesses lie. You have access to this same technology. Why guess when you can measure?!

- Know how far you hit every club in your bag
- Have a "go to" yardage you can rely upon
- Know your relative strengths and weaknesses and form practice habits to address these
- Have a better idea of what shot shape suits your swing style to improve your consistency
- Plot your results for long-term improvement
- Test yourself against the best: participate in the TrackMan Combine versus the best of the PGA Tour.
